The working tool with many advantages!

- Working methods and processes are optimized
- Resources can be used elsewhere
- Operating costs and the required time are optimized
- Health hazards for employees are reduced

- xetto® is the smart professional device for:
 - Loading and unloading
 - Transport
 - Ergonomic work on site (mobile workbench and lifting table)

- xetto® is the flexible working tool for application areas such as.:
 - Delivery service
 - Assembly
 - Service and technical support
 - Intralogistics and production
 - And many more

- Loads of up to 250 kg are handled safely and easily
- The working height can be adjusted continuously up to 106 cm
- Operation is simple and intuitive
- The investment pays off after just one year

Calculation example EUR

1 person à EUR 49.90 / h (internal full cost rate)

Equipment price EUR 4990 / EUR 49.90 = 100 man hours

100 hours / 50 weeks = 2 man hours per week

With an average of one to two applications per week by 1 employee instead of 2 employees or more, the device is fully amortized within the first year.

xetto® is health-friendly, it helps to improve occupational safety and leads to fewer absences from work, e.g. due to back injuries.

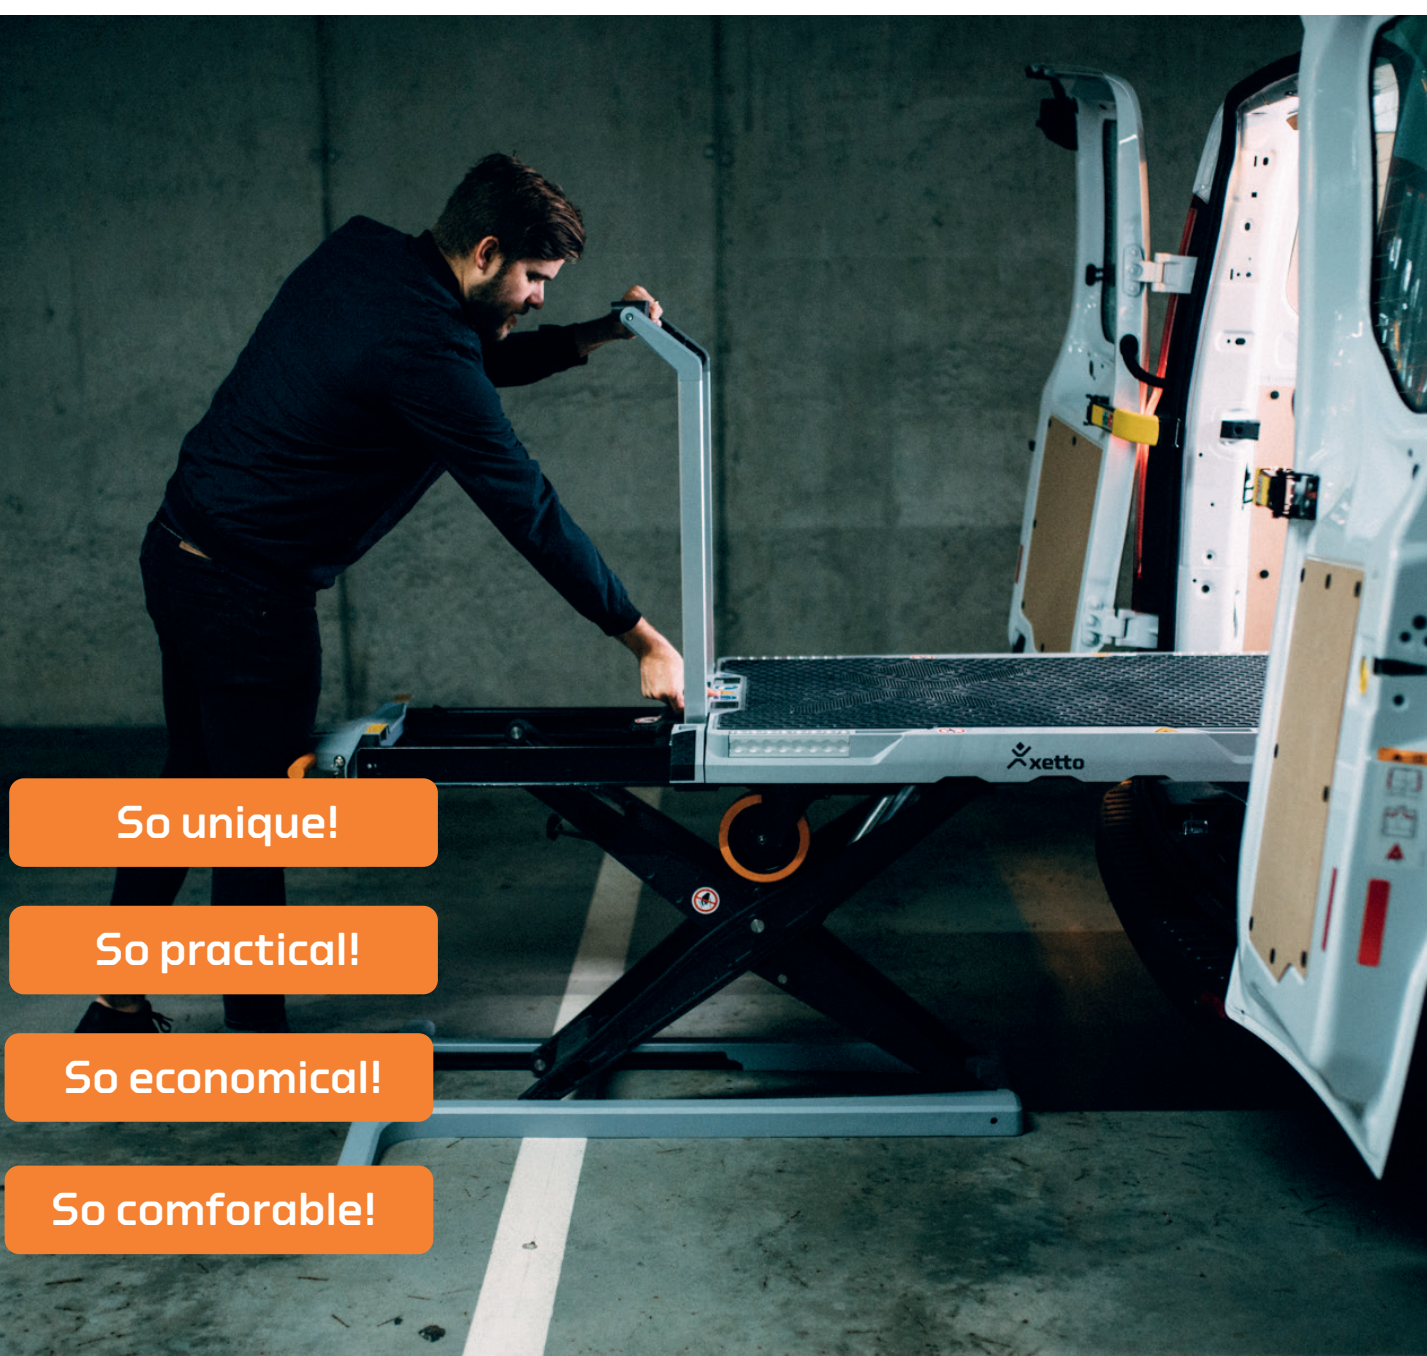

As part of the AGR (German back health campaign) Seal of Quality test, the xetto® was evaluated by the interdisciplinary, medical test commission as follows:
"xetto® meets all defined requirements and is suitable for promoting back health. It is therefore recommended to be purchased."

xetto® enables employees to work more independently, supports and reduces their workload. They can work more easily and on their own.

xetto® is mobile, thus the payload of the vehicles can be used optimally, and the dispatch of the vehicles can be done more flexibly.

The product meets high quality standards and is CE approved.

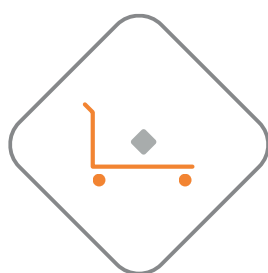

So unique!

So practical!

So economical!

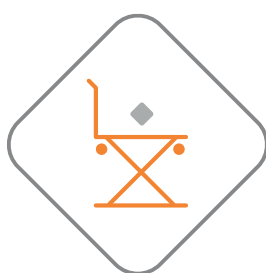

So comfortable!

This is how it works!

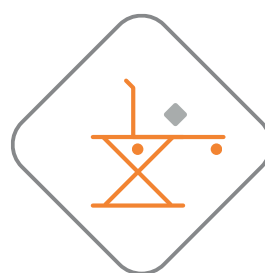

Moving

Transport goods on the **xetto®** in a handy and flexible way.

Lifting

Lift loads of 250 kg up to 106 cm just by pressing a button.
